# How to Make a Pop-Up Card for Father's Day or Any Day!

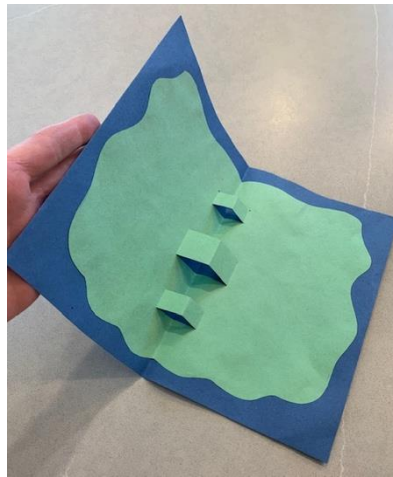

Materials:
Colored Paper
Colored Pencils
Markers or Crayons
Glue
Scissors

Step 1- Take 2 sheets of paper and fold in half. Cut one smaller around the edges, cut in any shape you like!

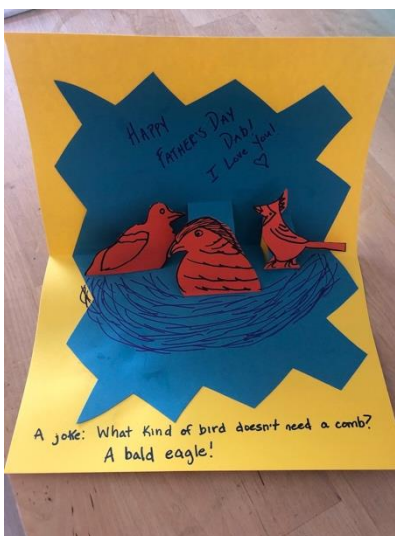

Step 2- Starting at fold of smaller paper, draw 3 or more squares for the pop-outs. Cut outside lines of the squares and carefully fold to inside of card.

Step 3- Once folds are popped out on the inside, glue the back to the bigger piece of paper.

Step 4- Draw anything you would like to attach to the pop outs. My Dad likes birds, so I drew birds for him. You can draw different kinds, sizes, and colors. Draw on colored or white paper. Cut out. You can also cut out images from an old newspaper or magazine if you like. Use your imagination!

Step 5- Glue your cut out objects to the pop outs, add others to background, add color, add details…again, use your imagination and get creative! I added a joke for my Dad. Don't forget the front of the card! Write a sweet note to your Dad or your favorite father figure!
