

How to Make a Pop-Up Baby Duck

Materials: Colored Paper or White Paper
Colored Pencils or Crayons, Glue, Popsicle Stick & Scissors

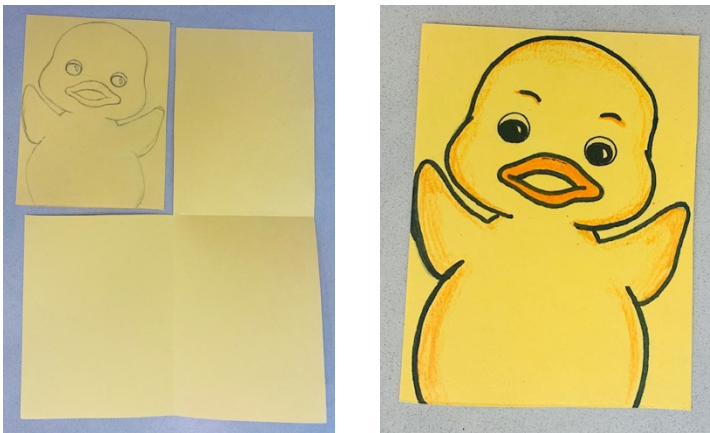

Step 1- Fold Paper in half. Draw an egg shape to fit within the half-sized page. Keep paper folded in half, cut out egg. Now you have 2 eggs.

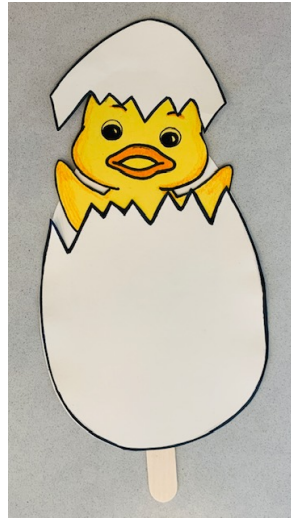

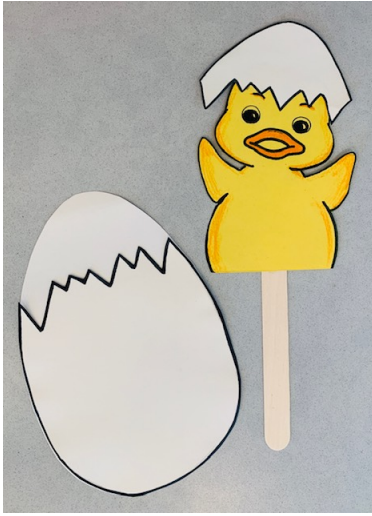

Step 2- Draw a zigzag line across the top of egg to look like a crack. Cut off the top along the zigzag of **ONLY 1** egg.

Step 3- Glue the bottom part of cracked egg to the 2nd egg. Only glue around edges and leave a space at bottom of egg where there is NO glue. (this is where the stick will go.)

Step 4- Take a 2nd sheet of paper and fold in half, fold in half a 2nd time to create 4 equal spaces. Draw a baby ducky on one of the spaces.

Step 5- Draw a baby ducky and color how you would like. Cut out ducky.

Step 6- Glue the popsicle stick to the back of the ducky, only about one inch of the stick should be glued. Glue the top of cracked egg to the top of the ducky's head, like a hat.

Step 7- Carefully slide stick through the space at bottom of eggs and finished! You now have a pop-up baby duck puppet!
